NATURAL ANTIBIOTICS ORDER FORM
Orders Due Friday, November 13, 2026

Agrisept-L
Antibiotic / Antiseptic / Sanitizer

Agrisept-L is a natural antibiotic with considerable research to support it. It kills bacteria, viruses, strep, e-coli, candida, salmonella, herpes, etc. Ingredients: Grapefruit, Lemon, Lime, and Tangerine Seed Extracts in a base of Vegetable Glycerin. Agrisept-L will not kill the beneficial bacteria in the body.

We have used this product successfully for over 30 years. For colds & flu we take 11 drops, 6-7 times per day, diluted in water, orange juice, or yogurt to mask the bitter taste.

Agrisept-L diluted in water is also great for washing fruits and vegetables, treating cuts and scrapes, and sanitizing surfaces. It is a great preparedness product.

Alkaline Structured Silver Solution
Better than Colloidal Silver!
